

Natural Gas

ENERGY FUTURE

This three-lesson course covers the natural-gas value chain, from the formation of natural gas and the exploration and production of natural gas through to its use by end consumers. It provides a valuable overview of the geography of natural gas resources and introduces learners to the economics and business risks and opportunities in the natural-gas market.

Who is this course for?

Graduates with engineering or science degrees joining the industry who require competence in subjects outside their area of expertise; professionals in back-office functions, such as procurement, HR, finance, operations and logistics.

Energy Future Ltd is registered with the National Association of State Boards of Accountancy (NASBA) as a sponsor of continuing professional education on the National Registry of CPE Sponsors. State boards of accountancy have the final authority on the acceptance of individual courses for CPE credit. Complaints regarding registered sponsors may be submitted to the National Registry of CPE Sponsors through its website: www.learningmarket.org

By taking this course, you will learn to:

- Identify the main components of and impurities in natural gas
- Recognise the carbon and pollution impacts arising from combustion
- Identify the main parts of the natural gas value chain
- Identify different types of natural gas reservoir
- Discover the objectives of natural-gas processing
- Recognise non-marketed uses of natural gas, including reinjection, flaring and NGLs
- Identify the principal types of natural gas companies through the value chain
- Identify the principal uses of natural gas and drivers behind market growth
- Recognise key gas-to-liquids concepts
- Recognise the principles of natural-gas storage

• Course requirements

There are no pre-requisites for this course.

• Advance preparation

None.

• Delivery method

QAS-SS

• Field of study

Specialized Knowledge and Applications

• Program level

Overview

• Course code

NG

• Course length

1 hour 15 minutes

• CPE Credits

1.5 self-study CPE credits are awarded for this course

• Course registration

To register, contact london@energy-future.com
Or call: +44(0)2076362007

• Refund policy

You may cancel your order within seven days as long as you have not launched a course. You can send us a cancellation notice by sending an email to admin@energy-future.com. As long as you have complied with your obligations under this clause, we will refund the purchase price to you by crediting the payment card you used to purchase the services.

• Complaints

Energy Future will make every effort to resolve complaints quickly and confidentially. A formal complaint must be submitted in writing to admin@energy-future.com, setting out the facts and the remedy sought. Energy Future undertakes to respond to complaints within three working days. Complaints may be discussed with the Energy Future team by calling +44 (0)20 7636 2007.
