Upstream Contracts

This four-lesson course instructs the learner to recognise, and distinguish between, the main contract models in use in the oil and natural gas industry, identify the advantages and disadvantages of each model, and explain the circumstances under which each would be likely to be be applied.

Who is this course for?

Graduates with engineering or science degrees joining the industry who require competence in subjects outside their area of expertise; professionals in back-office functions, such as procurement, HR, finance, operations and logistics.

Energy Future Ltd is registered with the National Association of State Boards of Accountancy (NASBA) as a sponsor of continuing professional education on the National Registry of CPE Sponsors. State boards of accountancy have the final authority on the acceptance of individual courses for CPE credit. Complaints regarding registered sponsors may be submitted to the National Registry of CPE Sponsors through its website: www.learningmarket.org
